Evemas

EVERYDAY LIFE & EXPERIENCES · DEMO · COMING SOON

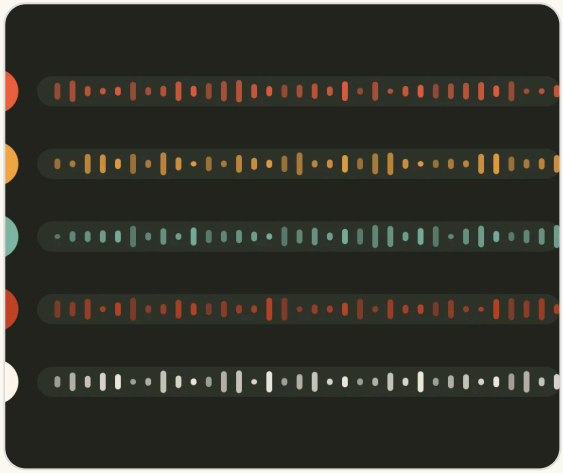

EDEL Investment GmbH
As of: 12 November 2026

Your voices. Your moment. Your song.

What if your celebration had its own song – sung by your guests? With Evemas, guests record short vocal tracks on their smartphones and these become your shared song. Content created with AI is clearly labelled. Evemas is still in a closed preview.

Coming soon This project is still in a closed preview. There is deliberately no public link yet – but here you can already see what is coming.

Use cases

Wedding

Guests scan the QR code, sing a line – and the couple gets a song that exists only once.

Birthday & anniversary

Friends and family contribute their voices – a gift everyone helped create.

Company party

One team, one song: the shared result remains as a memory of the evening.

Highlights

- Record on your smartphone
- QR code for guests
- Studio for your tracks
- AI content labelled
