PromptSonnet

AI ASSISTANTS · BETA · WEB APP

EDEL Investment GmbH
As of: 12 November 2026

Design, version and find your AI prompts.

Workspace for AI prompts: organise prompts in projects, version and restore every change, dictate by voice input and use them with GPT-4, Claude, Gemini or Mistral. A thread and citation system links questions to their sources. Start with a 50 YRA welcome bonus, no credit card needed.

Use cases

Organise prompts

Create as many projects with their own prompts as you like – instead of losing your best prompts in chats.

Track changes

Every change is versioned and can be restored.

Speak your prompt

Dictate by voice input; the AI turns what you say into structured data.

Highlights

- Four AI providers
- Full versioning
- Thread and citation system
- Voice input
