Taken your tablet? Just say it.

Wameli is your digital health diary with MIRA: you say or type what you have taken or how you feel – MIRA records it for you. That way you keep track yourself. Wameli does not replace medical advice.

Use cases

Log what you take

"Took my tablet" – one sentence is enough and MIRA notes the entry in your diary.

Note how you feel

How are you today? Briefly tell your mood and how you feel instead of filling in forms.

Keep track

All entries in one place – helpful for understanding your own everyday life better.
